The test will have four sections. A sample for each section is provided below.

SAMPLE ESSAY QUESTION:

If you were given one year to spend in service on behalf of others, what would you choose to do, and why?

SAMPLE MATH/LOGIC QUESTION:

Two apples and one orange cost 5.5 dollars. If three apples and an orange cost 7.5 dollars, what is the cost of two oranges?

SAMPLE SCIENCE MCQ:

A small pebble stone, a feather, a large cardboard box are released at precisely the same time from precisely the same height, which would land first provided air friction was equal to zero and gravitational force was constant.

- a) Pebble Stone
- b) Feather
- c) Large Cardboard Box
- d) They will land at the same time

SAMPLE RIDDLE:

What building has the most stories?
